OFFICIAL PRESS STATEMENT

DJ LUCY & RISI / GENERATION3000

July 2026

DJ LUCY & RISI and the Generation3000 project hereby announce that we have made a permanent business decision regarding the future distribution of our music. Termination of cooperation from the company in criminal proceedings with the accused perpetrator Zdeněk Pelc and his family.

After carefully considering publicly reported events concerning the former owner of GZ Media, together with our own ethical principles and long-term vision, we have decided that **our music will never be released through GZ Media or any affiliated distribution connected with that company.**

Declaration on our behalf: we declare that we refuse and hereby forever, due to an effort to escape from the consequences of the behavior of the owner of the company GZ MEDIA CR mentioned in the text, from the criminal and judicial proceedings to publish music through this company. We consider this behavior to be scandalous and such behavior is not respected by us but condemned. Zdenek Pelc CR as the perpetrator was the chairman of the board of directors of the GZ record company, but that does not make him above all people in the world as an impunity and alcoholic who caused this act of death of an innocent person and thus hurt the family of the deceased. Media Corrupt behavior of the owner of the company Press statement for the press,

This decision is entirely our own.

We believe that every creative project should reflect not only artistic quality but also the values and standards that its creators choose to support.

Our project is built on innovation, responsibility, transparency and respect for human life.

For this reason, we have chosen to seek publishing and manufacturing partners whose values are consistent with our own vision for Generation3000.

This statement is not intended to comment on any ongoing legal proceedings or judicial decisions.

It simply explains our permanent business position regarding future cooperation.

Generation3000 will continue to develop independently through international digital distribution and carefully selected business partners.
